(5th Semester)

SOCIOLOGY

SEVENTH PAPER

(Social Research)

Full Marks : 75

Time : 3 hours

The figures in the margin indicate full marks for the questions

(SECTION : A—OBJECTIVE)

(*Marks* : 10)

Tick (✓) the correct answer in the brackets provided : 1×10=10

1. Research means

(a) common sense knowledge based on the accumulated experience ( )

(b) unveiling of some hidden facts or laws based on vested interest ( )

(c) collection of data through observation, scheduled and interview ( )

(d) the systematic investigation in order to establish new facts and conclusions ( )

2. Which of the following is a characteristic of scientific research?

(a) Objectivity ( )

(b) Review of literature ( )

(c) Construction of hypothesis ( )

(d) Observation with prejudice ( )

3. An assumption about relations between variables in research is

(a) reasoning ( ) *(b)* hypothesis ( )

(c) methodology ( ) *(d)* analysis of data ( )

4. An important point to consider while constructing research question is

(a) formulate vague questions ( )

(b) construct un-relative question with the topic ( )

(c) consider the audience ( )

(d) select un-relevant questions from the topic ( )

5. Planning a strategy for conducting a research is

(a) review of literature ( ) *(b)* research design ( )

(c) selection of sample ( ) *(d)* hypothesis testing ( )

6. When the researcher begins the research with the few respondents who are known to him and respondents give other names who meet the criteria of research is

(a) snowball sampling ( ) *(b)* volunteer sampling ( )

(c) quota sampling ( ) *(d)* purposive sampling ( )

7. A small-scale preliminary study conducted in order to evaluate feasibility of the key steps in a research is

(a) selection of research problem ( )

(b) sample selection ( )

(c) research design ( )

(d) pilot study ( )

8. The research which concerns a search for ways of using scientific knowledge to solve practical problem is

(a) pure research ( ) *(b)* causal research ( )

(c) applied research ( ) *(d)* exploratory research ( )

9. In which type of observation, the subjects are aware that they are being observed?

(a) Covert observation ( )

(b) Overt observation ( )

(c) Direct observation ( )

(d) Structured observation ( )

10. The interviewer forms questions as and when required is called

(a) unstructured interview ( )

(b) structured interview ( )

(c) standardized interview ( )

(d) panel interview ( )

(SECTION : B—SHORT ANSWER)

(*Marks* : 15)

Answer the following : 3×5=15

UNIT—I

1. What is social research?

OR

2. Mention any three aims of social research.

UNIT—II

3. What is the objective of research?

OR

4. Mention any three important points to consider while selecting research problem.

UNIT—III

5. What is secondary data?

OR

6. Mention any three problems to achieve objectivity in research.

UNIT—IV

7. What is pilot study?

OR

8. Briefly explain experimental research.

UNIT—V

9. What is participant observation?

OR

10. What is data analysis in research?

(SECTION : C—DESCRIPTIVE)

(*Marks* : 50)

Answer the following : 10×5=50

UNIT—I

1. Examine the need of social research.

OR

2. Discuss the characteristics of scientific research.

UNIT—II

3. Explain the various steps involved in scientific research.

OR

4. Discuss the various characteristics of a good hypothesis.

UNIT—III

5. Explain the characteristics of a research design.

OR

6. Write the various types of sampling.

UNIT—IV

7. Explain the basic and applied research.

OR

8. Explain the explanatory and exploratory research.

UNIT—V

9. Discuss the various types of interview.

OR

10. Explain the various phases involved in report writing.
