2026

(NEP—2020)

(4th Semester)

EDUCATION (MAJOR)

(Research Methodology in Education)

Full Marks : 75

Time : 3 hours

The figures in the margin indicate full marks for the questions

(SECTION : A—OBJECTIVE)

(*Marks* : 10)

Tick (✓) the correct answer in the brackets provided : 1×10=10

1. Educational research is the application of scientific method in the study of
   (a) educational problems ( )
   (b) collection of data ( )
   (c) formulation of objectives ( )
   (d) analysis of data ( )

2. A research undertaken to solve classroom problems is
   (a) fundamental research ( ) *(b)* applied research ( )
   (c) action research ( ) *(d)* basic research ( )

3. Population refers to a group with
   (a) similar sample size ( )
   (b) selected respondents ( )
   (c) common characteristics ( )
   (d) variation in characteristics ( )

4. The purpose of sampling is to
   (a) collect the extreme statistical data ( )
   (b) obtain data even from inaccessible population ( )
   (c) complete the research project exactly in time ( )
   (d) obtain the best representative of the whole population under study ( )

5. A variable is called a variable because it
   (a) remains the same ( ) (b) is difficult to measure ( )
   (c) can take different values ( ) (d) is always numerical ( )

6. A research hypothesis which does not specify the direction of the relationship is
   (a) directional hypothesis ( )
   (b) non-directional hypothesis ( )
   (c) null hypothesis ( )
   (d) complex hypothesis ( )

7. The main purpose of literature review for a researcher is
   (a) to avoid repeating the same work already been done ( )
   (b) to select a larger sample ( )
   (c) to complete the researcher faster ( )
   (d) to collect newspapers ( )

8. The most direct method to study people's overt behaviour is
   (a) questionnaire ( ) (b) interview ( )
   (c) observation ( ) (d) intelligence test ( )

9. A test used to measure what a student has learned in a subject is called
   (a) personality test ( ) (b) aptitude test ( )
   (c) interest inventory ( ) (d) achievement test ( )

10. Which of the following is included in reference section?
   (a) Bibliography ( )
   (b) Design of study ( )
   (c) Significance of problem ( )
   (d) Recommendations for further study ( )

(SECTION : B—SHORT ANSWERS)

(*Marks* : 15)

Write notes on *five* of the following, taking at least *one* from each Unit : 3×5=15

UNIT—I

1. Fundamental research

2. Need of educational research

UNIT—II

3. Concept of population

4. Probability sampling

UNIT—III

5. Concept of variables

6. Literature review

UNIT—IV

7. Advantages of observation

8. Types of interview

(SECTION : C—DESCRIPTIVE)

(*Marks* : 50)

Answer *five* questions, taking at least *one* from each Unit : 10×5=50

UNIT—I

1. What do you mean by educational research? Describe the scope of educational research. 3+7=10

2. Describe the different steps involved in educational research. 10

UNIT—II

3. What is sampling? Discuss the principles of sampling. 3+7=10

4. What is non-probability sampling design? Explain the different types of non-probability sampling. 3+7=10

UNIT—III

5. What is hypothesis? Discuss the characteristics of a good hypothesis. 3+7=10

6. Explain the concept of research project. Discuss in detail the importance of research project. 3+7=10

UNIT—IV

7. Explain questionnaire as a tool of data collection. Mention its advantages and disadvantages. 2+4+4=10

8. What do you mean by psychological test? Explain any two types of psychological tests. 2+4+4=10

★★★
